If the leg is loose after assembly, loosen the screw Z11 slightly, until the lower leg can be turned 1 time around clockwise. Then tighten the Z11 screw again.

Indien de poot na montage niet vast genoeg zit, dient u schroef Z11 iets los te draaien, tot de onderste poot 1 keer rechtsom gedraaid kan worden. Daarna kunt u schroef Z11 weer vastschroeven.

Wenn die Pfosten nicht fest genug angezogen sind, muss die Schraube Z11 leicht gelöst werden, bis der untere Pfosten 1 Mal rechts herum gedreht werden kann. Dann muss die Schraube Z11 wieder gespannt werden.

Si les deux montants de pied ne sont pas suffisamment serrés, il convient de desserrer légèrement la vis Z11, jusqu'à pouvoir tourner la partie inférieure du pieds 1 fois dans le sens des aiguilles d'une montre. Ensuite reserrer la vis Z11.

Screw the bolt Z16 into the leg, until the ring on the bolt is flush with the end of the leg.

Schroef de bout Z16 in de poot, tot de ringmarkering op de bout gelijkvalt met de bovenrand van de poot.

Der Verbindungsbolzen Z16 wird eingeschraubt, bis der markierte Ring mit der Oberkante des Pfostens bündig ist.

Visser le goujon dans le pied jusqu'à ce que l'anneau gravé soit à fleur avec le bois.
